 It is the end customer's responsibility to complete the section on contamination and decontamination fully and correctly.

The product was contaminated with:

<input type="checkbox"/> not contaminated	<input type="checkbox"/> corrosive, caustic, irritating 	<input type="checkbox"/> haza. to the environment 
<input type="checkbox"/> dangerous 	<input type="checkbox"/> oxidising, supporting combustion 	<input type="checkbox"/> toxic 
<input type="checkbox"/> explosive 	<input type="checkbox"/> carcinogenic, hazardous to health 	<input type="checkbox"/> flammable 
<input type="checkbox"/> other:	<input type="text"/>	

The product was cleaned with:

All returned items must be decontaminated, and any previous contact with hazardous substances, liquids, gases, or biological material must be clearly indicated in the form.

If, upon receipt, contamination is found that was not stated in the RMA form, or if the information provided proves to be incorrect or incomplete, we reserve the right to:

- Reject the item, or
- Invoice a fee for incorrect information due to the potential risk to our personnel.

This fee covers the additional costs, handling, and safety measures required when processing a potentially hazardous item.
